Reliable Water Treatment for Every Application

Water quality directly impacts health, equipment life, operating costs, and productivity. At Hydroxy Water Technologies, we design and deliver customized water treatment solutions for residential, commercial, industrial, hospitality, healthcare, educational institutions, and infrastructure projects.

Whether your source is **surface water, groundwater, borewell water, municipal water, or raw water**, we provide engineered solutions that deliver **safe, soft, crystal-clear, and application-ready water**.

Why Trust Hydroxy?
Over two decades of trusted expertise, backed by fast response, genuine spare parts, expert technicians, and dependable after-sales support.

01

WATER SOFTENER SYSTEMS
SOLUTION

Transform hard water into soft, crystal-clear water using advanced ion-exchange technology. Protect your home, appliances, and plumbing while improving everyday comfort.

Suitable For

- Hard water (High Calcium & Magnesium).
- Scale formation on taps & pipelines.
- Dry skin and rough hair.
- High detergent consumption.
- Reduced appliance efficiency.

Benefits

- Prevents scale build-up.
- Softer skin & healthier hair.
- Extends appliance life.
- Reduces detergent usage.
- Lowers maintenance costs.

Applications

- Residential Homes • Apartments • Hotels
- Hospitals • Industries • Boilers • Cooling Towers • Commercial Buildings

02

RAW WATER TREATMENT
SOLUTION

Convert untreated raw water into clean, process ready water through customized filtration and purification systems designed for reliable performance.

Suitable For

- High turbidity.
- Suspended solids.
- Organic impurities.
- Unpleasant colour & odour.
- Variable water quality.

Benefits

- Produces clear, clean water.
- Protects downstream equipment.
- Improves process efficiency.
- Reduces operational costs.
- Consistent water quality.

Applications

- Industries • Manufacturing Plants
- Commercial Buildings • Water Utilities
- Agriculture • Infrastructure

03

SURFACE WATER TREATMENT
SOLUTION

Treat water from rivers, lakes, reservoirs, and other water bodies with advanced purification systems that remove contaminants and ensure safe, dependable water quality.

Suitable For

- Mud & suspended particles
- Algae growth
- Bacteria & viruses
- Organic contamination
- Seasonal quality fluctuations.

Benefits

- Safe and hygienic water.
- Removes turbidity & algae.
- Eliminates harmful microorganisms.
- Improves taste & clarity.
- Reliable year-round performance.

Applications

- Corporation Water Supply • Resorts
- Educational Institutions • Hospitals
- Residential Communities

04

GROUNDWATER TREATMENT
SOLUTION

Improve borewell and groundwater quality by removing hardness, iron, fluoride, excess TDS, and other dissolved contaminants for safe everyday use.

Suitable For

- Hard water.
- Iron & manganese.
- High TDS.
- Fluoride contamination.
- Salinity & unpleasant taste.

Benefits

- Crystal-clear water quality.
- Removes iron stains & odour.
- Reduces hardness & TDS.
- Protects plumbing systems.
- Safe for domestic use.

Applications

- Homes • Apartments • Industries • Schools
- Hospitals • Hotels • Villas

05

RO WATER TREATMENT
SOLUTION

Advanced RO technology delivers pure, safe drinking water by removing dissolved salts, heavy metals, bacteria, viruses, and other harmful contaminants.

Suitable For

- High TDS (Total Dissolved Solids)
- Salty or brackish water
- Heavy metals (Lead, Arsenic, Mercury)
- Fluoride & Nitrates
- Bacteria, viruses & microorganisms
- Unpleasant taste, odour & colour

Benefits

- Produces safe, crystal-clear drinking water.
- Removes up to 99% of dissolved impurities.
- Improves taste, odour, and clarity.
- Eliminates harmful bacteria & viruses.
- Low maintenance, energy-efficient.operation.

Applications

- Residential Homes • Villas • Apartments
- Hotels & Resorts • Hospitals • Educational Institutions • Restaurants • Food & Beverage Industries • Pharmaceutical Industries
- Laboratories Industrial Process Water

Designed for Everyday Performance

Hydroxy engineered water treatment solutions deliver cleaner water, healthier living, and long-term protection for your home and appliances

Skin Care

Hard Water
- Dry, Dull Skin
- Skin Irritation
- Weakened Skin Barrier
- Rashes & Redness

Soft Water
- Soft Skin
- Reduces Irritation
- Strengthens Skin Barrier
- Clear, Healthy

Hair Care

Hard Water
- Dry, Frizzy Hair
- Itchy, Irritated Scalp
- Hair Breakage & Fall

Soft Water
- Soft, Shiny Hair
- Cleaner, Healthier Scalp
- Stronger, Less Hair Fall
- Improved Moisture

Bathrooms and Fittings

Hard Water
- Stubborn, crusty deposits
- Reduced water flow
- Costly repairs

Soft Water
- Spotless, shiny fixtures
- Optimal water flow
- Long-lasting plumbing

Detergent Consumption

Hard Water
- Requires more detergent to achieve good result
- Scaling reduce machine life

Soft Water
- Better cleaning performance with less detergent
- Reduces scaling and extends machine life
- Save on detergent with every wash
